WORK EXPERIENCE

Behavioral Health Manager, Commonwealth Care Alliance/Commonwealth Community Care, Boston MA 2012-present

- Work collaboratively with clinical leadership to design, implement, and refine the provision and integration of behavioral health services within primary care setting.
- Provide clinical support and supervision to a team of behavioral health clinicians.
- Participate in the design, implementation, and performance of quality measurement and improvement activities relative to behavioral health services.
- Provide direct service to patients including home visits for behavioral health assessment and on-going behavioral health follow-up, counseling and support.
- Participate in team meetings and provides input to the clinical team on behavioral health issues, treatment options and strategies.
- Assume leadership in external relations to develop a network of behavioral health resources, collaborative partners, and clinicians focused on the care of people with disabilities.

Independently Contracted Clinical Social Worker, Boston's Community Medical Group, Commonwealth Care Alliance, and Community Medical Alliance Pediatric Group, Boston, MA 2008-2012

- Provided individual assessment, treatment planning, and ongoing, home-based psychotherapy services to a population coping with complex medical conditions and/or physical disabilities and diagnoses of depression, anxiety, and other affective disorders.
- Developed behavioral interventions and provide support and training to families and caregivers.
- Collaborated with treatment team of social workers, psychiatrists, psychologists, and medical providers to coordinate care and plan treatment.
- Assisted clients in identifying and accessing services and resources available to them in the community in order to improve quality of life and daily functioning.

Outreach Mental Health Clinician, Center for Family Development, Beverly, MA 2005-2008

- Provided individual assessment of diverse population of clients.
- Developed individualized treatment plans based on assessments.

- Provided ongoing home and school-based psychotherapy to a diverse population diagnosed with depression, anxiety and other affective disorders.
- Communicated and coordinated care with collateral providers and educators.
